

The Great Hudson River Fish Count 2023 Summary

Fish Highlights

386 Participants

An **Atlantic needle fish** was caught in **Kingston, NY**. This is not a common fish caught in seine nets. They have a distinctive long jaw and sharp teeth.

5,262 fish

Northern pipefish were caught at two different sites (Brooklyn Bridge park and Lemon Creek park). Pipefish are a cousin to the seahorse and live in salty water.

41 species

The most caught fishes were **Atlantic Silversides** and **Mummichogs**.

Across 10 sites
